Dear Ms. Tippet Mosby:

Thank you for your letter dated February 17, 2017, inquiring about the status of the U.S. Environmental Protection Agency's 2016 review of MDNR's Underground Storage Tanks Corrective Action program. The EPA's report has been drafted but no specific date has been set for finalization of this report; rather we expect the report will be finalized once any comments provided by the state are reviewed and incorporated, as appropriate. As you know, you may request copies of records from the EPA pursuant to the Freedom of Information Act by directing your request to <https://foiaonline.regulations.gov>.

Sincerely,

A handwritten signature in cursive script that reads "Karen A. Flournoy".
